

Overview of the Multi-Stakeholders Roadmap on Digital Health United Towards Integrated Care

Jan VAN EMELEN (VOKA Health Community)

On behalf of the Integrated Care Alliance

EUROPEAN PARLIAMENT, 10 OCTOBER 2018

PARTNERS

With the support of MEP Michal Boni and in cooperation with

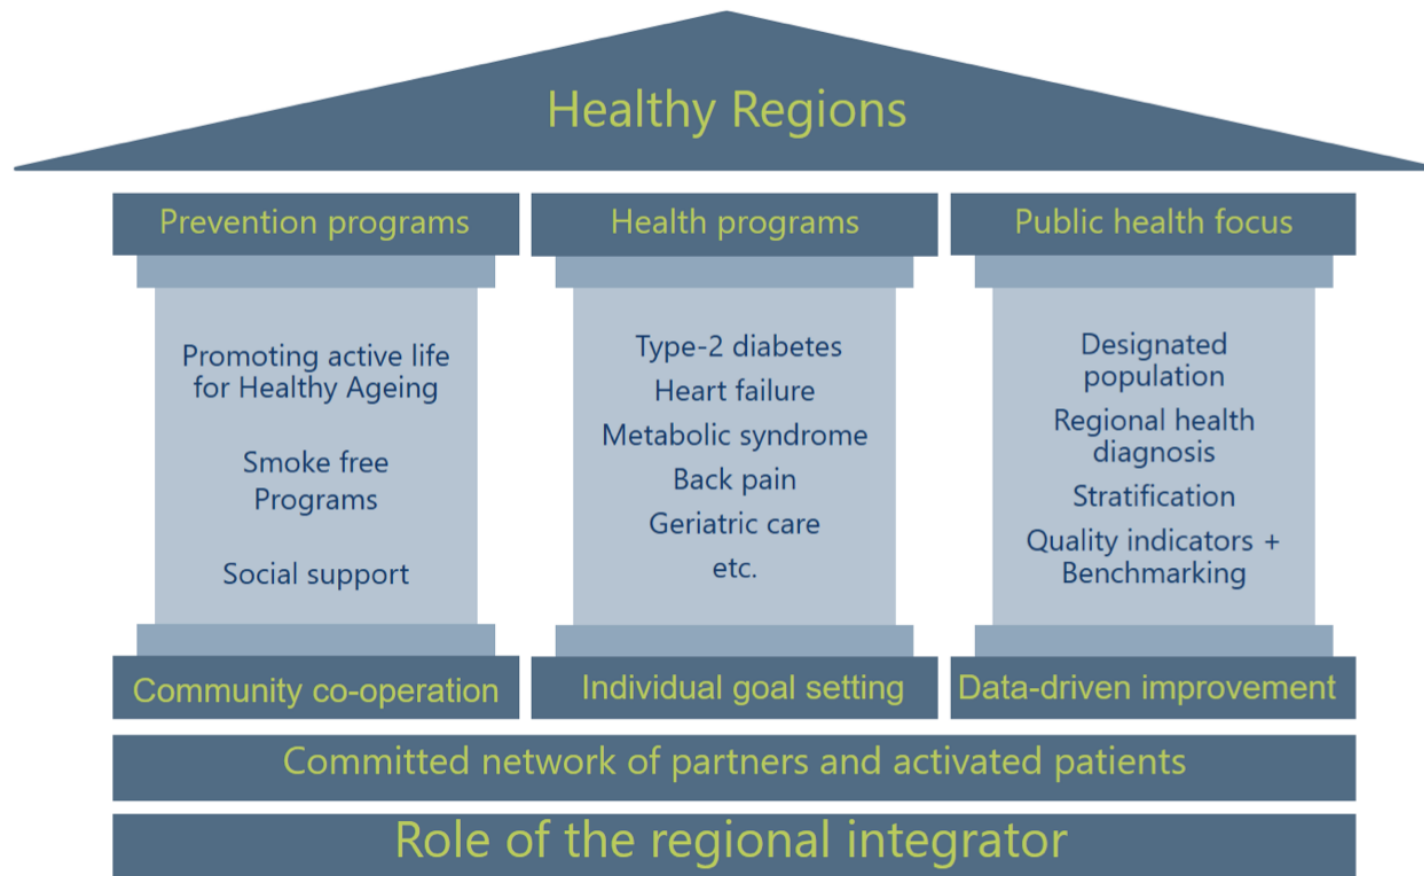

Integrated Care Triple AIM

Based on the Triple Aim principles of Donald M. Berwick

Donald M. Berwick (et al.) (2008). Health Affairs, vol. 27 no. 3, 759-769

Pillars of Integrated Care

Integrated Care Alliance

Dedicated group of multi-stakeholders' experts working together to provide direction, advice, and guidance for integrated care schemes.

The goal is to strengthen and expand integrated, sustainable health and care services across the EU Member States.

June 2016: Launch of the ICA [Call for Action](#)

Multi-Stakeholders Digital Health Roadmap

ICA Objectives by 2021

POLICY

Develop sustained political investment, clinical and professional leadership

NEW MODELS OF CARE

Develop innovative financing and population health management models

SKILLS, TRAINING & EDUCATION

Develop competencies needed to organise, deliver and manage Integrated Care

DIGITAL CARE TECHNOLOGIES

Adopt innovative and interoperable digital care technologies, and harmonised sharing data plans, in daily routine practice

Alliance: what to do – selected propositions

POLICY: Invest to scale up successful integrated care projects

NEW MODELS OF CARE: Develop new care and economic models for Integrated Care tailored to the regional and local context

SKILLS, TRAINING & EDUCATION: Educate health & social care workforce in Digital Care Solutions and enable citizens/patients to manage their own health through digital skills development & literacy,

DIGITAL CARE TECHNOLOGIES: Establish a framework for the deployment of interoperable solutions , establish a connected network of regional expert centres for digital care technologies for integrated care.
