The IHI JU has announced its intention to make the Grant in respect of the Action, subject to the terms of the Grant Agreement, and subject to the Beneficiaries entering into an agreement governing their collaboration (the “Consortium Agreement”).

“Exploitation” means the use of Results in further research and innovation activities other than those covered by the Action, including among other things, commercial exploitation such as developing, creating, manufacturing and marketing a product or process, creating and providing a service, or in standardisation activities. For the avoidance of doubt, “Exploitation” can be divided into (i) Research Use and (ii) Direct Exploitation.

(i) “Research Use” means the use of Results for all purposes other than for implementing the Action or for Direct Exploitation. For the avoidance of a doubt, such use includes but is not limited to the use of Results as a tool in research, development & innovation activities, including but not limited to use as a tool to support clinical research and trials on a product, and in standardization activities linked to such product.

For the avoidance of doubt, the field of Research Use includes use of Results, without limitation:

(a) for pharmaceuticals and vaccines, in:
  - all pre-clinical research and development activities,
  - all human clinical studies on compounds which were not Results of this Action (to the extent Results are used in such activities, e.g. as a tool),
  - all activities relating to developing the ability to commercialize any drug substance or drug product (including process development work),
  - all activities relating to seeking, obtaining and/or maintaining any regulatory approvals from regulatory authorities or for the purposes of a medicinal product assessment (as provided for in the applicable local legislation).

(b) for medical devices, medical technologies and imaging techniques, in:
  - all pre-clinical research and development activities,
  - all clinical studies or data obtained in order to determine the utility of a particular medical device which was not a Result of the Action,
  - the use of Results as a tool in all research & development steps taken (including use in tests) for development of a Beneficiary’s own medical device, medical technologies and imaging techniques with a view to ultimately making available to the market such medical device, medical technologies and imaging techniques,
  - all activities relating to developing the ability to commercialize any drug substance or drug product (including process development work) in combination with a medical device,
  - all tools used in the evaluation of design options for their suitability for commercialization,
  - all activities relating to seeking, obtaining and/or maintaining any regulatory approvals from regulatory authorities for new and existing commercial products or for the purposes of registration of a medical device (as provided for in the applicable local legislation).

To illustrate the distinction between Research Use and Direct Exploitation, an example of Research Use is the application of Results (like an animal model or a biomarker) as a
tool for research and clinical research in the discovery, development or commercialisation of pharmaceutical products by for-profit institutions and organisations. However, the commercialization of such biomarker itself as a diagnostic kit would be Direct Exploitation.

(ii) “Direct Exploitation” means use for all direct commercialization purposes. For the avoidance of doubt, such use includes directly (i) providing commercial services with (or using) Results, sales of Results (or products incorporating such Results, for instance commercialisation of a diagnostic kit containing a biomarker to the extent the biomarker was a Result), or marketing for commercial services on, or sales of, Results, (ii) developing a Result (for instance clinical trial on an asset which is a Result) with a view to directly commercialize such Result (or products incorporating such Result), and (iii) manufacturing a Result (or products incorporating such Result), with a view to directly commercialize such Result (or products incorporating such Result).

(ii) the legal entities concerned are owned or supervised by the same public body.

“Fair and Reasonable Conditions” means the appropriate conditions, including possible (a) Financial Terms, or (b) Royalty-Free Conditions, taking into account the specific circumstances of the request for access, for example the actual or potential value of the Results or Background to which Access Rights are requested and/or the scope, duration or other characteristics of the Exploitation (Research Use and/or Direct Exploitation) envisaged.

2. PURPOSE & INDEPENDENT CONTRACTING PARTIES

2.1 The purpose of this Consortium Agreement is to specify the Beneficiaries’ collaboration in relation to the Action in accordance with the provisions of the Grant Agreement, by supplementing the contractual provisions of the Grant Agreement to more specifically detail the rights and obligations of the Beneficiaries amongst each other in relation to,
inter alia, financial aspects, performance of the Action, Intellectual Property rights, Material transfer, confidentiality, project management and governance, and liability and indemnification.

2.2 This Consortium Agreement is not intended, and nothing contained herein shall be deemed, to create any partnership, agency or joint venture amongst the Beneficiaries or any of the Beneficiaries, nor to establish any other legal entity amongst any or all of the Beneficiaries. Although the term “consortium” is used throughout this agreement, based on the terminology used in the Grant Agreement, the Beneficiaries expressly agree they do not constitute a “consortium” as defined in the Belgian Companies and Association Code.

2.3 No Beneficiary shall enter into or have authority to enter into any engagement or make any representation or warranty on behalf of any of the other Beneficiaries or otherwise bind or oblige any other Beneficiary hereto. Each Beneficiary agrees to perform under this Consortium Agreement solely as independent contracting parties.

2.4 Each Beneficiary remains to be permitted to carry out any independent projects which are related to the subject matter of this Action. Results, Background, and Confidential Information of the other Beneficiaries may be used by such Beneficiary for the purposes of such other projects insofar and to the extent permitted by this Consortium Agreement.

3. **FINANCIAL PROVISIONS**

3.1 The Action is funded by the Grant [OPTIONAL: add if relevant for the Action: and the contribution (in kind and/or in cash) from the Industrial Beneficiaries]. The indicative budget of the Action is specified in Annexes 1 and 2 to the Grant Agreement.

3.2 Each Beneficiary eligible to receive IHI JU funding shall maintain financial records in relation to its activities within the Action, including its Affiliated Entities, Associated Partners and Sub-Contractors, according to the Grant Agreement.

3.3 The Coordinator shall give each Beneficiary eligible to receive IHI JU funding a minimum of forty-five (45) Days prior written notice of the deadline to produce additional prefinancing or periodic reports as prescribed in the Grant Agreement and each of these Beneficiaries shall be responsible for the preparation and obtaining of a certificate on the financial statements as may be required by the Grant Agreement. The Coordinator must receive these reports timely, with respect to the additional prefinancing and period reports, in order to enable him to meet the sixty (60) Days (after the end of the relevant reporting period) timeline for submission to IHI JU.

3.4 The Beneficiaries eligible to receive IHI JU funding agree that their respective entitlements to the Grant shall depend on: (a) the extent to which they shall be able to properly authenticate costs incurred, as Eligible Costs, and (b) the manner in which all Beneficiaries agree how the Action should proceed and the consequent allocation of costs amongst Beneficiaries eligible to receive IHI JU funding [OPTIONAL: add if relevant for the Action:; and (c) a go/no go-decision to proceed to the next stage in the Action as outlined in Annex 1 to the Grant Agreement]. Neither the Coordinator nor any of the other Beneficiaries shall be in any way liable or responsible for any justification of costs by a Beneficiary towards the IHI JU.

3.5 A Beneficiary that spends less than its allocated share of the budget as set out in Annex 1 of the Grant Agreement or – in case of reimbursement via unit costs - implements less units than foreseen in in Annex 1 of the Grant Agreement will be funded in accordance
with its units/actual duly justified Eligible Costs only. A Beneficiary that spends more than its allocated share of the budget as set out in Annex 1 of the Grant Agreement will be funded only in respect of duly justified Eligible Costs up to an amount not exceeding that share.

3.6 The Coordinator will receive directly the Grant from the IHI JU and undertakes to transfer, in accordance with the Grant Agreement, the appropriate sums to the respective Beneficiaries eligible to receive IHI JU funding without unjustified delay. The Coordinator will notify each of the Beneficiaries eligible to receive IHI JU funding promptly of the date and amount transferred to its respective bank account and shall give the relevant references. The Coordinator shall hold such funds in trust for the benefit of the other Beneficiaries eligible to receive IHI JU funding until such time such funds are transferred to the Beneficiaries eligible to receive IHI JU funding. No Beneficiary shall before the end of the Project receive more than its allocated share of the maximum grant amount less the amounts retained by the IHI JU for the mutual insurance mechanism (as provided for in the Grant Agreement) and for the final payment.

3.7 Without prejudice to the provisions of Clauses 4 and 12 of this Consortium Agreement and subject to the provisions of Clause 17 of this Consortium Agreement as well as the provisions of the Grant Agreement, the Coordinator can withhold any payment if a Beneficiary eligible to receive IHI JU funding is late in submitting or refuses to provide Deliverables as required under the Grant Agreement and this Consortium Agreement. In any case, the Action’s Steering Committee and General Assembly will be informed of the decision.

3.8 Bank account details of each Beneficiary eligible to receive IHI JU funding shall be provided to the Coordinator within thirty (30) Days of each such Beneficiary’s signature of this Consortium Agreement.

3.9 A Beneficiary receiving IHI JU funding has received excess IHI JU funding payment (i) if the IHI JU funding payment it received from the Coordinator exceeds the Eligible Costs it declared; or (ii) if it has received IHI JU funding payments from the Coordinator but, within the last year of the Project, its Eligible Costs fall significantly behind the costs it would be entitled to according to Annex 1 of the Grant Agreement. The Beneficiaries agree that “significantly” as used in the previous sentence shall mean XX. In case a Beneficiary receiving IHI JU funding has received excess payment, such Beneficiary has to inform the Coordinator and return the relevant amount to the Coordinator without undue delay. In case no refund takes place within thirty (30) days upon request for return of excess payment from the Coordinator, the Beneficiary is in material breach of this Consortium Agreement.

[OPTIONAL: the following clause can be inserted to distribute risks in case a Beneficiary spends much less of its pre-financing/interim payments than foreseen in the initial budget, and does not repay such sums. Amounts which are not refunded by a Beneficiary in material breach of this Consortium Agreement, and which are not due to the IHI JU (and for which therefore the Mutual Insurance Mechanism as set forth in Article 22 of the Grant Agreement does not intervene), shall be apportioned by the Coordinator to the remaining Beneficiaries Receiving IHI JU Funding pro rata according to their share of total costs of the Project as identified in Annex 1 of the Grant Agreement, until recovery from the breaching Beneficiary is possible.]
3.10 In case a Beneficiary earns any revenue that is deductible according to the Grant Agreement from the total funding as set out in Annex 1 of the Grant Agreement, the deduction is only directed toward the Beneficiary earning such revenue. The other Beneficiaries’ financial share of the budget shall not be affected by one Beneficiary’s revenue. In case the relevant revenue is more than the allocated share of the Beneficiary as set out in Annex 1 of the Grant Agreement, the Beneficiary shall reimburse the funding reduction suffered by other Beneficiaries.

3.11 A Beneficiary leaving the consortium shall refund to the Coordinator any IHI JU funding it has received except the amount of Eligible Costs accepted by the IHI JU.

3.12 In addition, a Defaulting Beneficiary shall bear any reasonable and justifiable additional costs occurring to the other Beneficiaries in order to perform the leaving Beneficiary’s task and necessary additional efforts to fulfil them as a consequence of the Beneficiary leaving the consortium. The General Assembly should agree on a procedure regarding additional costs which are not covered by the Defaulting Beneficiary or the mutual insurance mechanism (as provided for in the Grant Agreement).

3.13 For the avoidance of doubt, the provisions of this Clause 3 shall apply in relation to any proportion of a Beneficiary Allocated Work which such Beneficiary shall have properly, in accordance with the Grant Agreement and/or this Consortium Agreement, subcontracted to a Sub-Contractor, as if such Beneficiary had undertaken such proportion on its own account.

4. IMPLEMENTATION OF THE ACTION

4.1 Each Beneficiary shall carry out the tasks specifically allotted to it in the Action, both in relation to the completion of each such Beneficiary’s Allocated Work, and in relation to all other undertakings and obligations pursuant to the Grant Agreement and this Consortium Agreement. Each Beneficiary shall maintain and allocate sufficient resources required to carry out such tasks in a timely manner.

4.2 If necessary to implement the Action, the Beneficiaries may assign the implementation of certain Action tasks described in Annex 1 of the Grant Agreement to Sub-Contractors. Sub-contracting may cover only a limited part of the Action. Other than to the extent provided in this Consortium Agreement, or as may be otherwise expressly permitted under the Grant Agreement, no Beneficiary shall be entitled to sub-contract any part of its Allocated Work to a Sub-Contractor.

4.3 Each Beneficiary shall be responsible for the compliance by its Affiliated Entities, Extended Affiliates, Associated Partners, and Sub-Contractors with the terms of this Consortium Agreement and the Grant Agreement. Where reference to Allocated Work to be performed by a Beneficiary is made in Annex 1 of the Grant Agreement, it shall be understood as referring to Allocated Work to be performed by the Beneficiary or any of its Affiliated Entities, Extended Affiliates, Associated Partners, or its Sub-Contractors, without such Affiliated Entities, Extended Affiliates, Associated Partners, and/or Sub-Contractors becoming Beneficiaries.

4.4 Each Beneficiary acknowledges that any delay in the Deliverables of a Beneficiary due to delays in obtaining the necessary data from another Beneficiary to undertake the allocated tasks (without prejudice to the latter’s liability to the other Beneficiaries) will be considered a justified delay and as such it is an exception to any liability of the Beneficiary so delayed in connection with its timely performance of its task in the Project.
4.5 Each Beneficiary shall promptly, provide or forward to the Coordinator all data, information or material which the Coordinator is reasonably required to collect, pursuant to the provisions of this Consortium Agreement or under the Grant Agreement.

4.6 Each Beneficiary will use reasonable endeavours to carry out its Allocated Work but does not give any warranty or make any representation that its Allocated Work will lead to any particular result, nor does it guarantee a successful outcome of the Project.

4.7 The Beneficiaries shall perform their obligations and exercise their rights under this Consortium Agreement and the Grant Agreement in accordance with all applicable laws and regulations, and ethical guidelines.

4.8 Unless otherwise required or prohibited by law, the Beneficiaries each warrant, to the best of their knowledge, that in relation to the performance of this Consortium Agreement:

   a) they do not employ, engage or otherwise use any child labour in circumstances such that the tasks performed by any such child labour could reasonably be foreseen to cause either physical or emotional impairment to the development of such child;

   b) they do not use forced labour in any form (prison, indentured, bonded or otherwise) and its employees are not required to lodge papers or deposits on starting work;

   c) they provide a safe and healthy workplace, presenting no immediate hazards to its employees. Any housing provided by the Beneficiaries to their employees is safe for habitation. The Beneficiaries provide access to clean water, food, and emergency healthcare to their employees in the event of accidents or incidents in the workplace;

   d) they do not discriminate against any employees on any ground (including race, sexual orientation, religion, disability or gender);

   e) they do not engage in or support the use of corporal punishment, mental, physical, sexual or verbal abuse and do not use cruel or abusive disciplinary practices in the workplace;

   f) they comply with the laws on working hours and employment rights in the countries in which they operate;

   g) they are respectful of their employees’ right to join and form independent trade unions and freedom of association; and

   h) they pay each employee at least the minimum wage or a fair representation of the prevailing industry or academic wage (as applicable) according to applicable standards of the countries in which the Beneficiary operates (whichever is the higher) and provide each employee with all legally mandated benefits.

The Beneficiaries are responsible for controlling their own supply chain and they shall encourage compliance with ethical standards and human rights by any subsequent supply of goods and services that are used by the Beneficiaries when performing their obligations under this Consortium Agreement.

4.9 [OPTIONAL: Insert in case laboratory animal work is part of the Action:] All work involving the use of animals in laboratory research will be performed in accordance with all applicable laws, regulations and ethical guidelines, as outlined in Appendix 2 [OPTIONAL: and following consultation with the Ethics Advisory Board].
4.10 **[OPTIONAL: Insert in case clinical trials are part of the Actions]** In Actions involving clinical trials, the agreements governing such trials will form the subject of a separate agreement between the relevant Beneficiaries or Third Parties and shall contain provisions which, at a minimum, provide protection for study subjects and Personal Data consistent with the terms of this Consortium Agreement and shall not conflict with the terms of this Consortium Agreement.²

**Processing of Personal Data, use and transfer of data, and Human Samples**

4.11 **Personal Data.** The Beneficiaries must Process Personal Data under and pursuant to this Consortium Agreement and the Grant Agreement in compliance with their respective obligations under applicable EU and national laws on data protection (including, the General Data Protection Regulation (Regulation (EU) 2016/679)).

4.12 **Personal Data – representation and warranty.** Each Beneficiary represents and warrants (i) that any Personal Data required for use in the Project or generated during the Project that are Processed by it will be Processed in accordance with all relevant laws and regulations regarding the Processing of Personal Data and (ii) that any applicable authorisation from relevant supervisory authorities and informed consents of the Data Subjects – in so far needed under applicable law- required for performing the Action or to conduct Research Use pursuant to the provisions of the Consortium Agreement (or otherwise determined in an agreement between the data provider(s) and the data receiver(s)), will be obtained prior to the commencement of the respective part of the Allocated Work respectively the envisaged Research Use. When Processing Personal Data under or pursuant to the Grant Agreement and/or this Consortium Agreement, the relevant Beneficiaries will comply with the terms and conditions as set out in Appendix 3.

4.13 **Human Samples.** The Beneficiaries must use Human Samples under and pursuant to this Consortium Agreement and the Grant Agreement in compliance with their respective obligations under applicable international and national laws and regulations.

4.14 **Human Samples - representation and warranty.** Each Beneficiary represents and warrants that any Human Samples required for use in the Project that are obtained, handled or used by it (i) will be obtained, handled or used in accordance with all relevant laws and regulations (and where applicable, local ethical guidelines) regarding the collection, use, transport and subsequent disposal of Human Samples and (ii) that any ethics committee approvals and Donor informed consents – in so far needed - required for performing the Action or to conduct Research Use pursuant to the provisions of the Consortium Agreement (or otherwise determined in a bilateral agreement between the Human Sample provider and the Human Sample receiver), will be obtained prior to the commencement of the respective part of the Allocated Work respectively the envisaged Research Use. When processing Personal Data in relation to Human Samples under or pursuant to the Grant Agreement and/or this Consortium Agreement, the relevant Beneficiaries will comply with the terms and conditions as set out in Appendix 3.

4.15 **Data agreements.** The relevant Beneficiaries may need to enter into appropriate additional agreements (e.g. data processing and/or data transfer agreements), to implement, regulate and facilitate appropriate provisions on the transfer and

² For the avoidance of doubt, the Beneficiaries involved in such separate agreements may agree on different arrangements governing the clinical trials as the ones provided for in this Consortium Agreement (for instance with respect to liability), but these arrangements should only be applicable as between such Beneficiaries and cannot affect the rights and obligations of the other Beneficiaries under this Consortium Agreement.
processing of data (including Personal Data) in relation to the Project, including the case of data transfers of data to a database/platform or biobank within the Project. The draft of such additional agreements shall in such case be initiated by the Beneficiary providing the data to another Beneficiary/Third Party (data receiver), regardless of the status of the Beneficiary providing the data per applicable Data Protection Legislation, before the transfer or processing of such data actually occurs, unless agreed otherwise in writing and beforehand between the data provider and data receiver or otherwise covered in the Data Management Plan. Such agreements may not contain provisions contradicting this Consortium Agreement (including the provisions of Appendix 3 to the extent and in so far applicable) or limiting any usage rights already granted under this Consortium Agreement, and are subject to applicable Data Protection Legislation.

4.16 **Data Transfer Records.** Notwithstanding Clause 4.15 of this Consortium Agreement, to the extent that in accordance with this Consortium Agreement and/or the Grant Agreement data that (i) are not and do not contain Personal Data, (ii) are Anonymous, and/or (iii) are fully Anonymized, need to be transferred from one Beneficiary (including through its Extended Affiliates, Associated Partners, and/or Sub-Contractors) (“Providing Data Beneficiary”) to another Beneficiary (“Recipient Data Beneficiary”), such transfer can be done within the framework and in compliance with the provisions of the Consortium Agreement, without the need to conclude additional agreements to facilitate such transfer. However, the Providing Data Beneficiary is entitled to require the use of the data transfer record forms in Appendix 4 to record the transfer of such data. Each Recipient Data Beneficiary shall be furthermore bound by the following provisions and shall be responsible for ensuring that its Extended Affiliates, Associated Partners, and/or Sub-Contractors comply with such provisions:

4.16.1 The data will be accessed and used in compliance with all applicable laws and regulations and pursuant to and in compliance with the terms and conditions (including the Access Rights granted) under this Consortium Agreement.

4.16.2 The transfer of the data itself does not modify the acknowledgment and/or allocation of Intellectual Property rights of Clauses 5, 6 and 7 of this Consortium Agreement. This transfer shall only be the consequence of honoring the rights (e.g., ownership, licenses or Access Rights) that both the Providing Data Beneficiary and the Recipient Data Beneficiary shall have on the relevant Background and Results according to Clauses 5, 6 and 7 of this Consortium Agreement.

4.16.3 The data shall not be transferred or made available by the Recipient Data Beneficiary to any individual other than those allowed under this Consortium Agreement and/or Grant Agreement.

4.16.4 The Receiving Data Beneficiary shall return to the Providing Data Beneficiary or destroy at the Providing Data Beneficiary’s request all data of the Providing Data Beneficiary which are in its possession, power or control or in the possession, power or control of its personnel, other individuals under the supervision and control of the Receiving Data Beneficiary, Extended Affiliates, Associated Partners, and/or Sub-Contractors who have received such data from the Receiving Data Beneficiary pursuant to this Consortium Agreement, whenever requested to do so by the Providing Data Beneficiary, and where such data is not required by the Receiving Data Beneficiary for the use or exercise of its rights (including Access Rights) or licenses under this Consortium Agreement. The return or destruction of the data will not affect the Receiving Data Beneficiary’s
obligation to observe the confidentiality and non-use restrictions in respect of
the Providing Data Beneficiary’s Confidential Information set out in this
Consortium Agreement.

4.16.5 Unless otherwise provided in this Consortium Agreement, all data are
transferred with no warranties, express or implied, of merchantability or fitness
for a particular purpose or otherwise. In particular, no Providing Data Beneficiary
represents or warrants that the use of the data will not infringe or violate any
patent or proprietary rights of Third Parties.

4.17 Anonymization of Personal Data. To the extent a Beneficiary introduces to the Action
Anonymized data and thereby enables other Beneficiaries or Third Parties to access and
process such data within the Action, at least the following will apply:

a) The introducing Beneficiary represents and warrants that any such data which
initially contain Personal Data have been Anonymized before they are transferred
to the data receiver;

5.1 IDENTIFICATION OF BACKGROUND, ADDITIONAL DATA, KNOW-HOW OR INFORMATION

5.1.1 Beneficiaries shall identify and agree the Background in writing in Appendix 5 of
this Consortium Agreement. Such Appendix shall be deemed the “Agreement on
Background” pursuant to Annex 5 of the Grant Agreement. If Background is
subject to rights of a Third Party, the contributing Beneficiary must ensure that
it is able to comply with its obligations under the Grant Agreement and this
Consortium Agreement.

Pursuant to the Grant Agreement where the call conditions restrict control due
to strategic interests reasons, Background that is subject to control or other
restrictions by a country (or entity from a country) which is not one of the eligible
countries or target countries set out in the call conditions and that impact the
Exploitation of the Results (i.e. would make the Exploitation of the Results
subject to control or restrictions) must not be used and must be explicitly
excluded from it in the Agreement on Background — unless otherwise agreed
with the IHI JU.

5.1.2 After its signature of or accession to the Grant Agreement and during the Action,
each Beneficiary may identify additional Background. The Beneficiary shall add
such additional Background to the list provided for in Appendix 5 and circulate
the updated list to the other Beneficiaries and [insert appropriate governance body, such as the PMO]. Providing additional Background in the Background appendix shall constitute an amendment to this Consortium Agreement.

5.1.3 The Background identified in accordance with Clauses 5.1.1 and 5.1.2 of this Consortium Agreement shall be subject to the Access Rights pursuant to Clauses 7.2.1 (Access Rights to Background for implementation), 7.3.1 (Access Rights to Background needed for Research Use of Own Results) 7.3.2 (Access Rights to Background reasonably required for Research Use of Results owned by other Beneficiaries), 7.4.1 (Access Rights to Background for Direct Exploitation of Own Results), and 7.4.2 (Access Rights to Background for Direct Exploitation of Results) of this Consortium Agreement. For the avoidance of a doubt, anything which is not identified pursuant to Clauses 5.1.1 and 5.1.2 of this Consortium Agreement shall not constitute Background and shall not be subject to said Access Rights.

5.1.4 A Beneficiary may contribute Additional Data, Know-How or Information whatever its form or nature, tangible or intangible, including any rights such as Intellectual Property rights, that it lawfully acquires control of following the date it acceded to the Grant Agreement and which could be useful to carry out the Action. Such Additional Data, Know-How or Information shall be identified by filling-in the form set out in Appendix 5 of this Consortium Agreement and returning such form to the other Beneficiaries and [insert appropriate governance body, such as the PMO]. Such data, information and Know-How, if contributed and identified, is not formally Background but shall be subject to the same Access Rights as those granted between the Beneficiaries (and their Extended Affiliates) for Background.

5.1.5 When identifying Background pursuant to Clauses 5.1.1 and 5.1.2 of this Consortium Agreement or Additional Data, Know-How or Information pursuant to Clause 5.1.4 of this Consortium Agreement, the Beneficiary shall at the same time identify in Appendix 5 any obligation to others pertaining to such Background or such Additional Data, Know-How or Information that he is aware of and that could prevent or restrict the enjoyment of Access Rights granted under this Consortium Agreement.

5.1.6 [Optional: include if relevant for the Action.] Software Background/and or Background Databases obtained from Third Parties can be introduced under Controlled License Terms in the Action only to the extent the Beneficiaries approve unanimously such introduction under Controlled License Terms into the Action. Such approval shall be obtained either pursuant to Clause 5.1.1 of this Consortium Agreement or, in case the Controlled License Terms are not included in Appendix 5 at the time of signature of this Consortium Agreement, pursuant to an express written (email suffice) approval following a notification by the contributing Beneficiary specifying the Controlled License Terms and how they affect the Access Rights under this Consortium Agreement.

5.2 OWNERSHIP AND TRANSFER OF BACKGROUND AND ADDITIONAL DATA, KNOW-HOW OR INFORMATION

5.2.1 Each Beneficiary shall remain the exclusive owner of its Background and Additional Data, Know-How or Information. Participation in the Action shall not affect such ownership rights in its Background and Additional Data, Know-How
or Information, without prejudice to any rights and obligations under this Consortium Agreement and the Grant Agreement.

5.2.2 Each Beneficiary remains free to license, transfer or otherwise dispose of its ownership rights in Background and Additional Data, Know-How or Information, provided that the Access Rights to such Background and Additional Data, Know-How or Information as provided for in this Consortium Agreement and the Grant Agreement can remain to be granted.

5.2.3 Where a Beneficiary transfers its ownership rights in Background and Additional Data, Know-How or Information, it must pass on its obligations specified under the Grant Agreement and this Consortium Agreement regarding the Background and Additional Data, Know-How or Information to the transferee, including the obligation to pass those obligations on to any subsequent transferee. If a Beneficiary grants licenses on the Background and/or Additional Data, Know-How or Information it owns or lawfully holds, it must ensure that Access Rights granted to others as defined in the Grant Agreement and this Consortium Agreement can be preserved and that obligations to grant Access Rights to others can be fulfilled.

6. INTELLECTUAL PROPERTY – RESULTS

6.1 OWNERSHIP OF RESULTS

6.1.1 Each Beneficiary shall own the Results it has generated.

6.1.2 Such Beneficiary shall ensure that any rights of its employees or any other parties in relation to such Results can be exercised in a manner compatible with the Beneficiary’s obligations under the Grant Agreement and this Consortium Agreement. This includes that each Beneficiary shall enter or have entered into appropriate (employment) agreements with its employees, agents and personnel, and have directed its Extended Affiliates, Associated Partners and Sub-Contractors, if any, to enter or have entered into agreements with their employees, agents and personnel, providing that each such employee, agent or personnel transfers the full ownership to any Results to such Beneficiary (as the case may be through such Extended Affiliates, Associated Partners and Sub-Contractors), unless this is already provided for automatically under applicable law.

In case such terms cannot be agreed under applicable national laws, regulations and policies, the relevant Beneficiary shall ensure that only employees, agents, researchers and personnel, including PhD students, who have signed agreements or forms, legally permitted under applicable laws and regulations, clearly stating that such persons agree to be bound by the terms and conditions of this Consortium Agreement or otherwise leading to equivalent legally binding terms are allowed to participate in the implementation of the Action.

If obtaining these rights is impossible, the Beneficiary cannot use the relevant Extended Affiliates, Associated Partners and Sub-Contractors and their
6.1.3 Two or more Beneficiaries shall own Results jointly ("Joint Owners") if:

a) they have jointly generated such Results, and

b) it is not possible to:
   (i) establish the respective contribution of each Beneficiary, or
   (ii) separate such Results when applying for, obtaining or maintaining their protection.

Joint Owners shall agree in writing on the allocation and terms of exercise of their joint ownership in a joint ownership agreement defining their respective rights and obligations with respect to the jointly owned Results, in the absence of which the relevant joint ownership sections of this Consortium Agreement shall serve as the joint ownership agreement between them.

Unless otherwise agreed in the joint ownership agreement pursuant to Clause 6.1.3 of this Consortium Agreement, in the case of joint ownership of Results, each Joint Owner is granted a non-exclusive, world-wide, fully paid up, royalty-free, perpetual, irrevocable license to use the jointly owned Results for Research Use, including the right to grant non-exclusive sub-licenses to its Extended Affiliates, and to contractors, licensees and collaborators carrying out Research Use on behalf and for the benefit of the Joint Owner without the need to inform the other Joint Owners.

[Include either OPTION 1 or OPTION 2 below: OPTION 1: Each Joint Owner and its Affiliated Entities shall have a license to use for Direct Exploitation the jointly owned Results, including the right to grant non-exclusive licenses to Third Parties subject to the following conditions

(a) prior notice of at least forty-five (45) Days must be given to any other Joint Owner(s); and,

(b) fair and reasonable compensation must be provided to the other Joint Owners, to be agreed in writing on a case-by-case basis prior to the start of the Direct Exploitation.]

[OPTION 2: each Joint Owner is granted a non-exclusive, world-wide, fully paid up, royalty-free, perpetual, irrevocable license to use the jointly owned Results for Direct Exploitation, including the right to grant non-exclusive sub-licenses to its Extended Affiliates, and to contractors, licensees and collaborators carrying out Direct Exploitation on behalf and for the benefit of the Joint Owner without the need to inform the other Joint Owners.]

6.1.4 The owning Beneficiaries must indicate their presumed ownership of any Results in the Results ownership list in the final periodic report, as the case may be taking into account any ownership transfers pursuant to Clause 6.3 of this Consortium Agreement. Such list shall be based on the template made available for Horizon Europe projects and be adopted by the General Assembly. The Beneficiaries explicitly agree such list shall only have indicative value and shall not prevail over the terms of this Consortium Agreement and the Grant Agreement.

6.2 DATA CONTRIBUTED AS IN-KIND
6.2.1 A Beneficiary may contribute Data Contributed as In-Kind if so agreed with the IHI JU. Beneficiaries shall identify any Data Contributed as In-Kind in writing in Appendix 6 of the Consortium Agreement.

6.2.2 Data Contributed as In-Kind is not considered Background. Data Contributed as In-Kind shall be considered Results, and more specifically [add applicable Result sub-type], and the provisions applicable to such Results in this Consortium Agreement shall apply to such Data Contributed as In-Kind. They shall continue to be owned by the Beneficiary introducing them into the Action and shall be considered Confidential Information of such Beneficiary (whether or not marked as such).

6.3 TRANSFER OF OWNERSHIP AND GRANTING OF LICENSE ON RESULTS

6.3.1 Subject to Clauses 6.3.2 to 6.3.6 of this Consortium Agreement, each Beneficiary remains free to transfer its ownership rights in the Results it owns provided that this does not affect compliance with its obligations under the Grant Agreement and this Consortium Agreement. Such Beneficiary shall ensure that its obligations under the Grant Agreement and this Consortium Agreement with respect to such Results shall also apply to the new owner and that the latter has the obligation to pass them on in any subsequent transfer.

6.3.2 [OPTIONAL: include either OPTION 1 or OPTION 2 if relevant for the Action:]

**OPTION 1:** Beneficiaries may agree here that ownership of certain Results, once said Results have been generated, shall be transferred from the initial owning Beneficiary(-ies) to another Beneficiary. If so wished, the following wording is suggested: Notwithstanding Clause 6.1.1 of this Consortium Agreement, any [Describe specific Result sub-type] Results are initially owned by the Beneficiary(-ies) who generated such Results. However, immediately following generation of the [Describe specific Result sub-type] Results, each such owning Beneficiary automatically and in full transfers to the [Short name specific Beneficiary] any of its ownership rights, title and interest in the respective [Describe specific Result sub-type] Results. In consideration of this assignment of ownership upon creation, the following conditions as outlined below apply: [___].

**OPTION 2:** Beneficiaries may agree here that where Results have been generated by one or more Beneficiary(-ies) as a result of a cash contribution from another Beneficiary, these Results would be transferred to the cash funding Beneficiary:

Results generated by Beneficiary(-ies) having received a cash contribution from another Beneficiary shall be initially owned by the Beneficiary(-ies) who generated such Results. However, immediately following generation of such Results, each such owning Beneficiary automatically and in full transfers to the cash contributing Beneficiary any of its ownership rights, title and interest in the respective Results. The cash contribution shall be the unique and full compensation for the transfer of such Results.

6.3.3 [OPTIONAL: include in case any of the options above have been included. If, despite a Beneficiary’s best efforts, the Results are not exploited within one (1) year after the end of the Action, such Beneficiary must (unless otherwise agreed in writing with the IHI JU) use the Horizon Results Platform to find interested parties to Exploit the Results.

\(^3\) According to the Annotated Model Grant Agreement for EU Funding Programmes, page 137, in exercising “best efforts” Beneficiaries must be proactive and take specific measures to try to ensure that their results are exploited (to the extent possible and justified)\(^\)\(^\)\(^\)\(^.\)

This provision applies up to four (4) years after the end of the Action.

6.6 DISSEMINATION OF RESULTS & COMMUNICATION

6.6.1 General commitment on Dissemination

6.6.1.1 Each Beneficiary shall Disseminate its Results as soon as feasible, in a publicly available format, subject to any restrictions due to the protection of Intellectual Property, security rules, or legitimate interests (for instance, because the Results have not yet been protected, the Results concern trade secrets, or disclosing the Results would infringe on applicable Personal Data protection, security related, or other applicable obligations).

6.6.1.2 A Beneficiary may not Disseminate Results owned by another Beneficiary or any Background, Additional Data, Know-How or Information, or Confidential Information of such other Beneficiary, even if such Results, Background, Additional Data, Know-How or Information, or Confidential Information are amalgamated with such Beneficiary’s Results, without the owning Beneficiary’s prior written approval.

6.6.2 Review and Approval Process

6.6.2.2 Any Beneficiary may object to such a proposed Dissemination within thirty (30) Days of notification, if it can show its legitimate interest in relation to its Results, Background or Additional Data, Know-How or Information,

c) where other legitimate interests of the objecting Beneficiary in relation to its Results or Background would be significantly harmed.

If such objection is made, the publishing Beneficiary will:

(i) in case of a) extend the review period and delay the proposed publication for a period determined by the objecting Beneficiary, which cannot exceed twelve (12) months to allow the objecting Beneficiary to evaluate the patentability and/or to file a patent application for the objecting Beneficiary’s Results, Background or Additional Data, Know-How or Information; and/or otherwise modify the publication as requested for Intellectual Property reasons;

(ii) in case of b) delay the Dissemination until the objecting Beneficiary’s Confidential Information is removed from the proposed Dissemination;

(iii) in case of c) enter into good faith discussions with the objecting Beneficiary on how to address the legitimate interests of the objecting Beneficiary, as the case may be, by amending the proposed Dissemination.

6.6.2.3 If no objection is received in writing within a twenty (20) Days’ period from the date of notification of the proposed Dissemination, the Beneficiary seeking Dissemination shall send an e-mail reminder to those Beneficiaries who have not yet responded. If no objection is received in writing within the thirty (30) Days’ period mentioned in Clause 6.6.2.2 of this Consortium Agreement, the Beneficiary seeking Dissemination will be free to proceed with the Dissemination as submitted to the other Beneficiaries to the extent such Dissemination does not include or refer to Results, Background, Additional Data, Know-How or Information, or any Confidential Information of any other Beneficiary.

6.6.2.4 Nothing in this Consortium Agreement shall be construed as conferring rights to use in advertising, publicity or otherwise the name of the Beneficiaries or any of their logos or trademarks without their prior written approval.

6.6.2.5 For the avoidance of doubt, the aforementioned Dissemination review procedure shall also apply in case Results are published in connection with a student submitting a thesis. All appropriate measures ensuring compliance with applicable requirements under Appendix 3 and ensuring confidentiality must be taken by the Beneficiary with which the student is associated to ensure protection of Confidential Information and/or patent protection of the other Beneficiaries, which shall, where appropriate,
require examiners external to the Beneficiary university to sign an agreement of non-disclosure prior to receipt of the thesis.

15. AMENDMENTS AND RECORD KEEPING

15.1 Any amendment to the Grant Agreement shall become automatically an integral part of this Consortium Agreement with effect as of the effective date of the amendment to the Grant Agreement, without the need to formalise an amendment to this Consortium Agreement.

15.2 Amendments to this Consortium Agreement, other than for the purpose of implementing an amendment to the Grant Agreement, may be made only by written instrument signed by an authorised signatory of each of the Beneficiaries, other than where any such amendment shall relate solely to the contact details of a Beneficiary, or shall otherwise be permitted under any provision hereof such as Clauses 5.1.2 and 5.1.4 of this Consortium Agreement, in which event that Beneficiary’s written notice in accordance with the provisions of this Consortium Agreement shall suffice.

15.3 The Project Leader shall keep records of this Consortium Agreement (including its Appendices) together with any amendments to this Consortium Agreement. For the avoidance of doubt, the Coordinator shall keep records of the Grant Agreement (including its appendices) together with any amendments to the Grant Agreement.

16. ACCESSION TO THE ACTION – NEW BENEFICIARIES

16.1 Where, during the implementation of the Action, and with the prior approval of the IHI JU in accordance with the procedures specified in the Grant Agreement, the Beneficiaries agree to admit new Beneficiaries to the Action, each such new Beneficiary shall, as a condition of admission be required to accede to the Grant Agreement by completion of an Annex 3 of the Grant Agreement.

16.2 Each such new Beneficiary shall, at the same time as its execution of Annex 3 of the Grant Agreement, enter the consortium upon signature of the Form of Accession shown in Appendix 13 of this Consortium Agreement by the new Beneficiary and the Coordinator. Such accession shall have effect from the date identified in the Form of Accession.

16.3 New Beneficiaries must assume the rights and obligations under this Consortium Agreement with effect from the date identified in the Form of Accession.

OPTION 3: the competent courts of Brussels, Belgium, except if mandatory applicable laws or regulations foresee another place of jurisdiction.

17.3 The Beneficiaries concerned may, rather than arbitrate under Clause 17.2 of this Consortium Agreement, instead elect to resolve by mediation a dispute or difference arising in connection with this Consortium Agreement which cannot be settled amicably. Such election shall be unanimous written consent of the Beneficiaries involved in the dispute. Such dispute or difference will then be submitted to mediation in accordance with the ICC or WIPO mediation rules or any other mediation instance agreed upon by the Beneficiaries concerned. The place of mediation shall be Brussels unless otherwise agreed upon. The language to be used in the mediation shall be English unless otherwise agreed upon.

18.2 ASSIGNMENT

18.2.1 With the exception of transfers of Results and Background permitted under this Consortium Agreement, no Beneficiary shall assign any interest in this Consortium Agreement to any Third Party (for the avoidance of doubt, including an Affiliated Entity) without the prior written consent of each other Beneficiary and of the IHI JU and any such assignment shall be subject to such Third Party assignee agreeing in writing to (i) continue the performance of the Action undertaken by the assignor; and (ii) comply with the provisions of the Grant Agreement and this Consortium Agreement.

connection with such proposed assignment and that Beneficiary’s Allocated Work, including, without limitation, the extent to which such Allocated Work has been completed and Eligible Costs incurred to date. That Beneficiary shall, notwithstanding such assignment, remain liable under the Grant Agreement to the IHI JU for any additional information which the IHI JU may, either through the Coordinator or directly of such Beneficiary, reasonably request regarding that Beneficiary’s Allocated Work and/or Eligible Costs.

18.3 SEVERABILITY
If any provision of this Consortium Agreement shall for any reason and to any extent be determined to be invalid or unenforceable under applicable law, then such invalidity or unenforceability shall not affect the remainder of this Consortium Agreement, unless the invalid or unenforceable provision is of such importance that it can be reasonably assumed that the Beneficiaries would not have entered into this Consortium Agreement without the invalid or unenforceable provision. The Beneficiaries agree to replace any such invalid or unenforceable provision with a valid and enforceable provision designed to achieve, to the extent possible, the purposes and intent of such invalid and unenforceable provision.

18.4 ENTIRE AGREEMENT

18.4.1 This Consortium Agreement, its appendices and the Grant Agreement and its annexes constitute the entire agreement between the Beneficiaries in respect of the Action, and supersede all previous negotiations, commitments and writings.

18.5 WAIVER
Any term or condition of this Consortium Agreement may be waived only by a written instrument executed by the Beneficiary waiving the benefit of a right hereunder. The waiver by a Beneficiary of any right hereunder shall not be deemed a continuing waiver of such right or of another right hereunder, whether of a similar nature or otherwise.

18.6 PRIORITIES
In the event of any ambiguity, doubt or conflict emerging herein, the terms and conditions of this Consortium Agreement shall take precedence over the terms and conditions of any Appendix, unless the latter makes an explicit reference to the provision of this Consortium Agreement that shall be amended.
19. ANTI-BRIBERY AND ANTI-CORRUPTION

19.1 Each Beneficiary shall have in place an appropriate anti-bribery and anti-corruption policy and provide associated training and/or appropriate notification of responsibilities to its employees to enable such Beneficiary to comply with its obligations under Clause 19.2 of this Consortium Agreement, with which it shall comply at all times.

A Beneficiary shall have no claim against the General Assembly or the other Beneficiaries for compensation for any loss of whatever nature by virtue of the termination of their participation under the Grant Agreement in accordance with this Clause 19. To the extent (and only to the extent) that the applicable laws provide for any such compensation to be paid to a Beneficiary upon the termination of their participation under the Grant Agreement, each Beneficiary hereby expressly agrees to waive (to the extent possible under such applicable laws) or to repay any such compensation or indemnity. The provisions of Clause 13.3.3 of this Consortium Agreement shall apply in such circumstances.

20. DEBARMENT

20.1 Each Beneficiary represents that in performing the Action it has not and it will not use in any capacity the services of anyone debarred, disqualified, blacklisted or banned or under investigations or threat of investigations by any regulatory authority for debarment, disqualification, blacklisting or any similar regulatory action in any jurisdiction anywhere in the world. Furthermore, each Beneficiary represents and warrants that neither it, nor its employees, agents or Representatives, Affiliated Entities, Associated Partners or Sub-Contractors have been debarred, disqualified, blacklisted or banned by any regulatory authority, nor that they are currently to the best of each Beneficiary’s knowledge, the subject of such a debarment, disqualification, blacklisting or banning proceeding. Beneficiaries agree to comply and further agree to oblige their Affiliated Entities, Associated Partners and Sub-Contractors to comply, with all relevant statutes, legislation, regulations and guidelines for the care, welfare and ethical treatment of animals used in research in the country where the research is being performed as well as applicable international regulations including US Guide of the Care and EU Directive 210/63/EU. Any laboratory animal research should be done in an AAALAC\(^6\) accredited institution or approved by Pharma Animal Care and Use Council (PACC). In conducting any research involving the use of animals, the Beneficiaries further agree to comply and oblige their Affiliated Entities, Associated Partners and Sub-Contractors to comply with the “3R” Principles- replacing animals with non-animal methods whenever possible, reducing the number of animals used, and refining the research techniques used. All work must be conducted in adherence to the core principles for animals on research studies identified below. Local customs, norms, practices or laws may be additive to the core principles, but the Beneficiaries agree to comply and oblige their Affiliated Entities, Associated Partners and Sub-Contractors to comply, as a minimum, with these core principles:

- Access to species appropriate food and water;
- Access to species specific housing, including species appropriate temperature and humidity levels;
- Access to humane care and a programme of veterinary care;
- Ability to demonstrate species-specific behavior;
- Adherence to principles of replacement, reduction and refinement in the design of in vivo studies;
- Study design reviewed by institutional ethical review panel;
- Commitment to minimizing pain and distress during in vivo studies; and
- Work performed by appropriately trained staff.

Beneficiaries, Affiliated Entities, Associated Partners and Sub-Contractors may be required to provide evidence to other Beneficiaries within the Project that they can confirm adherence to the above principles and guidelines. Beneficiaries reserve the right to conduct due diligence, that could require site visits, to be assured of such compliance. If any material deficiencies are subsequently identified the Beneficiary concerned shall endeavour in good faith to take (or have their Affiliated Entity, Associated Partner and/or Sub-Contractor concerned take) reasonable and practical corrective measures to remedy any such material deficiencies.\(^6\)

Appendix 3: Actions involving Personal Data

1. APPLICATION

The Action consists of different Work Packages. Each Work Package may in turn consist of different tasks under which a Beneficiary may potentially process Personal Data as either a Controller, Joint Controller or Processor and potentially engage a Third Party in such Processing, which may also be acting as a Controller or Processor.

Beneficiaries will have to comply (and procure that the Third Parties assigned by them will comply) with the following principles and applicable laws and regulations when collecting, processing, storing, using or transferring any Personal Data for activities conducted, sponsored, supported or funded pursuant to the Action.

To the extent that, according to the Data Protection Legislation, the information on the Processing of the Personal Data shall be provided to and/or any consent (if and where required) shall be granted by the legal guardian of the Data Subject, the provisions in that regard of this Appendix 3 regarding the Data Subject shall apply, where and to the extent relevant, to the Data Subject’s legal guardian instead.

2. DEFINITIONS

“Controller” shall mean in respect of any particular transfer of Personal Data the Beneficiary which, alone or jointly with another Beneficiary or a Third Party, determines the purposes and means of Processing.

“Joint Controllers” shall mean where two or more Controllers jointly determine the purpose and means of the Processing of the Personal Data.

“Processor” shall mean any Beneficiary or Third Party that Processes Personal Data on behalf and according to the instructions of a Controller.

3. ACTIONS REGARDING PERSONAL DATA

3.1. General obligations of the Beneficiaries when Processing Personal Data (when Beneficiaries are acting as a Controller).

When Personal Data are introduced to the Action by or on behalf of a Beneficiary, such Beneficiary must ensure that:

(1) the Personal Data are Processed in accordance with all laws, rules, regulations and guidelines applicable to their collection, use, handling, disposal and further Processing of Personal Data, including — without limitation — data protection legislations (to the extent applicable on a Beneficiary Processing Personal Data), such as the General Data Protection Regulation 2016/679 (EU), “GDPR” (or succeeding regulations) and implementing national data protection laws as applicable, the UK Data Protection Act 2018 (“UK GDPR”) and the Standards for Individually Identifiable Health Information (45 CFR Parts 160 and 164, the “Privacy Rule”) promulgated pursuant to the Health Insurance Portability and Accountability Act of 1996 (USA), and the Personal Health Information Protection Act of 2004 (Canada), all as updated from time to time and as applicable (“Data Protection Legislation”)

(2) if applicable, and in so far and to the extent required under the Data Protection Legislation, the Personal Data are Processed with voluntarily given informed consent covering the use of the Personal Data (including Research Use) in the field of the Project and/or a field compatible with the Project and permitting cross-border transfers within the EEA (or such cross-border EEA transfers are otherwise permitted pursuant to applicable Data Protection
Legislation) and/or outside the EEA, in which case additional safeguards and/or agreements and may need to be implemented between the data provider(s) and data receiver(s) in compliance with and pursuant to applicable Data Protection Legislation. Such informed consent may be revocable any time with effect for the future (taking into account that the consequences of such withdrawal may be restricted under the Data Protection Legislation),\(^7\)

(3) to the extent required under Data Protection Legislation, the responsible ethics committee/Institutional Review Board (IRB) has given its approval to the collection, processing, storage, use and transfer of the Personal Data under the Action, and

(4) if applicable, the Data Subjects have not withdrawn their informed consents (taking into account that the consequences of such withdrawal may be restricted under the Data Protection Legislation) before transferring the Personal Data to a data receiver (or otherwise Processing the Personal data), to the extent the informed consent is used as a legal basis to transfer such Personal Data or to otherwise Process such Personal Data. The Beneficiary introducing the Personal Data to the Action shall as soon as reasonably possible and without undue delay inform the other Beneficiaries in writing in case that the Data Subjects withdraw consent (taking into account that the consequences of such withdrawal may be restricted under the Data Protection Legislation).

(5) The Beneficiary shall procure that the Personal Data are (i) Processed lawfully, fairly and in a transparent manner, (ii) collected for specified, explicit and legitimate purposes, (iii) adequate, relevant and limited to what is necessary in relation to the purposes for which they are Processed (or further compatible processing if permitted under the Data Protection Legislation) (iv) accurate and (where necessary) kept up to date (v) not kept for a period longer than necessary (except if permitted by the Data Protection Legislation if appropriate technical and organisational measures are implemented) and (vi) Processed in a manner that ensures appropriate security of the Personal Data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

3.2 Beneficiaries shall ensure that the Processing of Personal Data is subject to appropriate security measures that: (a) are able to ensure the ongoing confidentiality, integrity, availability and resilience of processing systems and services (b) where appropriate result in Pseudonymisation and/or Anonymization of Personal Data; (c) are able to restore the availability and access to the Personal Data in a timely manner in the event of a physical or technical incident; and (d) include a process for regularly testing, assessing and evaluating the effectiveness of technical and organizational measures for ensuring the security of the Processing.

3.3 Beneficiaries shall ensure that personnel dealing with the Processing of Personal Data are obliged to data secrecy under an enforceable confidentiality duty and that they are informed about the obligations under the Data Protection Legislation and contractual provisions

\(^7\) The Beneficiaries should consider to agree on a data protection concept including the minimum requirements for informed consents, if required under Data Protection Legislation, such as that (i) the purpose of use in informed consent must cover activities under the Action (and further processing in so far allowed under Data Protection Legislation), (ii) informed consent must allow for transfer of data and samples to academic and commercial entities inside and outside EU, and (iii) the informed consent must be voluntary with a right to withdraw at any time (taking into account that the consequences of such withdrawal may be restricted under the Data Protection Legislation).
regarding data protection and that they will act in accordance with those obligations and provisions.

3.4 To the extent a Sub-Contractor Processes Personal Data, the appointing Beneficiary will select such Sub-Contractor considering the adequacy of the technical and organizational measures for the protection of Personal data implemented by the Sub-Contractor and will oblige such Sub-Contractor in accordance with this Consortium Agreement. Where Personal Data are transferred to a Sub-Contractor outside the EEA, the appointing Beneficiary will procure that such transfer to the Sub-Contractor provides an adequate level of protection, according to applicable Data protection Legislation (as set out in Section 4.2 of this Appendix 3).

3.5 Beneficiaries will not introduce to the Action or Process Personal Data for reasons unrelated to the Action (which may include Access Rights to such Personal Data for Research Use pursuant to the provisions of the Consortium Agreement), unless (i) all legal requirements under applicable Data Protection Legislation for the collection, processing, storage, use and transfer of the Personal Data under the Action or under subsequent compatible processing (such as that the informed consent – to the extent it is relied upon – allows for such use or subsequent processing is allowed under the Data Protection Legislation) are fulfilled, and (ii) prior written approval of the competent ethics committee/IRB is obtained, to the extent required under applicable legislation. Further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purpose subject to the conditions set out in the Data Protection Legislation. When a Beneficiary obtains Personal Data from a source where the collection was made for reasons unrelated to the Action the Beneficiaries shall need to become informed about the origin of the Personal Data.

3.6 Each Beneficiary is solely responsible for complying with applicable Data Protection Legislation, including evaluating its role as Controller, Joint Controller or Processor in relation to a Work Package and/or a Work Package task under the Project such Beneficiary participates in.

3.7 **Controller to Controller Actions.** To the extent a Beneficiary introduces to the Action Personal Data and thereby enables other Beneficiaries or Third Parties to access and Process such Personal Data within the Project independent from specific instructions regarding the handling of Personal Data ("Controller to Controller"), the introducing Beneficiary and the accessing Beneficiary/Third Party are additionally obliged as follows:

1. To the extent applicable and where required under Data Protection Legislation, the introducing Beneficiary shall inform the Data Subjects about Personal Data transfers and Processing by the accessing Beneficiary and/or Third Parties. The introducing Beneficiary may request the accessing Beneficiary and/or Third Parties to share all information required in order for the introducing Beneficiary to duly inform Data Subjects according to applicable transparency obligations.

2. The introducing and accessing Beneficiary/Third Party respectively are the responsible contact for any requests of the Data Subjects, e.g. for information, correction or deletion of the Personal Data or for an objection to the Processing, the case being.

3. The introducing and accessing Beneficiary/Third Party shall take all reasonable technical and organizational measures necessary to protect the introduced Personal Data against unauthorized or unlawful Processing and against accidental loss, destruction of or damage to such Personal Data, in accordance with Article (5).

4. The accessing Beneficiary and introducing Beneficiary will assist each other upon first request in being able to ensure and show compliance (when Processing Personal Data with the provisions of the Consortium Agreement and/or applicable Data Protection Legislation,
taking into account the information available to the introducing and accessing Beneficiary (e.g. in ensuring the introducing and/or the accessing Beneficiary is able to comply with its obligations vis-à-vis the Data Subject and/or prove such compliance).

(5) (If an accessing Beneficiary/Third Party is required by law or receives any order, demand, warrant or any other document from a court of competent jurisdiction or other governing body requesting or purporting to compel the production of Personal Data, accessing Beneficiary/Third Party shall, except to the extent prohibited by law, immediately notify the introducing Beneficiary and shall not produce the Personal Data for at least forty-eight (48) hours following such notice to the introducing Beneficiary so that the introducing Beneficiary may, at its own expense, exercise such rights as it may have under law to prevent or limit such disclosure. In addition to the foregoing, accessing Beneficiary/Third Party shall exercise reasonable efforts to prevent and limit any such disclosure, and/or to otherwise preserve the confidentiality of the Personal Data, and shall cooperate with the Introducing Beneficiary with respect to any action taken with respect to such legal process, including to obtain an appropriate protective order or other reliable assurance that confidential treatment will be accorded to the Personal Data, in compliance with applicable law.

3.8 The transfer of Personal Data on a Controller-to-Controller basis does not modify the acknowledgment and/or allocation of Intellectual Property rights of Clauses 6, 7 and 8 of this Consortium Agreement. This transfer shall only be the consequence of honoring the rights (e.g., ownership, licenses or Access Rights) that both the introducing Beneficiary and the accessing Beneficiary/Third Party shall have on the relevant Background and Results according to Clauses 6, 7 and 8 of this Consortium Agreement.

3.9 Controller to Processor Actions. To the extent the Beneficiary introduces to the Action Personal Data that are accessed and Processed by other Beneficiaries or Third Parties only on behalf and instructions of the introducing Beneficiary (“Controller to Processor”), the introducing Beneficiary (Controller) and the accessing Beneficiary/Third Party (Processor) are additionally obliged as follows:

(1) The introducing Beneficiary shall only use those Beneficiaries or Third Parties as Processors that provide sufficient guarantees to implement appropriate technical and organizational measures in such a manner that Processing will meet the requirements of the Data Protection Legislation and ensure the protection of the rights of the Data Subject.

(2) The accessing Beneficiary/Third Party as Processor shall not engage another Processor without prior specific or general written authorisation of the Controller. In the case of general written authorisation, the Processor shall inform the Controller of any intended changes concerning the addition or replacement of other Processors, thereby giving the Controller the opportunity to object to such changes. Where the accessing Beneficiary/Third Party does engages another Processor for carrying out specific processing activities on behalf of the Controller, the same data protection obligations as set out in the contract or other legal act between the Controller and the Processor as referred to in Article 3.9 (2) shall be imposed on that other processor by way of a contract or other legal act, in particular providing sufficient guarantees to implement appropriate technical and organizational measures in such a manner that Processing will meet the requirements of the Data Protection Legislation and ensure the protection of the rights of the Data Subject.

---

8 Clause 3.8 may also become relevant in case that the consortium establishes databases and/or human sample repositories. In this case the Beneficiary responsible for database/repository may be considered a Processor so that Clause 3.8 would apply. Please also note that the prerequisites established in this Clause 3.5 may have to be supplemented with additional wording according to the national legal requirements for commissioned data processing.
organisational measures in such a manner that the processing will meet the requirements of the Data Protection Legislation. Where that other Processor fails to fulfil its data protection obligations, the accessing Beneficiary/Third Party as initial Processor shall remain fully liable to the Controller for the performance of that other Processor’s obligations.

(3) The Processing of the Personal Data by the accessing Beneficiary/Third Party as Processor shall be governed by a contract or other legal act under applicable data Protection Legislation, that is binding on the accessing Beneficiary/Third Party as Processor with regard to the Controller and that sets out amongst other the subject-matter and duration of the processing, the nature and purpose of the Processing, the type of Personal Data and categories of Data Subjects and the obligations and rights of the Controller.

(4) The accessing Beneficiary/Third Party shall Process Personal Data exclusively in the name of and in accordance with the documented instructions of the introducing Beneficiary, including with regard to the transfer of Personal Data to a Third Country unless required to do so by Union or Member State law to which the accessing Beneficiary/Third Party as Processor is subject; in such a case, the accessing Beneficiary/Third Party as Processor shall inform the Controller of that legal requirement before processing, unless that law prohibits such information on important grounds of public interest (Commissioned Data processing). The introducing Beneficiary remains the Controller and responsible for the legality of Processing Personal Data.

(5) The Processing of the Personal Data by the accessing Beneficiary shall exclusively and entirely occur in the type and extent and for the purposes (or further processing if and to the extent allowed under Data Protection Legislation).

(6) The accessing Beneficiary /Third Party as Processor shall be regarded as Processor and shall not acquire any rights with respect to the Personal Data.

(7) The accessing Beneficiary/Third Party as Processor will ensure that persons it authorises to Process the Personal Data comply with the duties set forth in Article 3.2.

(8) The accessing Beneficiary/Third Party as Processor will implement appropriate, technical and organizational measures to ensure a level of security appropriate to protect the Personal Data against unauthorized or unlawful Processing and against accidental loss, destruction of or damage to such Personal Data in accordance with Article 5.

(9) The accessing Beneficiary/Third Party as Processor will, by appropriate technical and organisational measures, assist the Controller insofar as this is possible, for the fulfilment of the Controller’s obligation to respond to requests for exercising the Data Subject’s rights, taking into account the nature of the processing.

(10) The accessing Beneficiary/Third Party as Processor will assist the Controller, upon its request, in ensuring compliance with the obligations relating to the security of processing, data breach notifications, data protection impact assessment and prior consultation to the Data Protection Authority, taking into account the nature of the Processing and the information available to the Processor. In any case, the Processor will report to the Controller any data/privacy breach without undue delay and at the latest within 24 hours after having become aware of it and provide the Controller with all relevant information in that regard.

(11) If an accessing Beneficiary/Third Party is required by law or receives any order, demand, warrant or any other document from a court of competent jurisdiction or other governing body requesting or purporting to compel the production of Personal Data, accessing Beneficiary/Third Party shall, except to the extent prohibited by law, immediately notify the introducing Beneficiary and shall not produce the Personal Data for at least forty-eight (48) hours following such notice to the introducing Beneficiary so that the introducing Beneficiary may, at its own expense, exercise such rights as it may have under law to prevent or limit
such disclosure. In addition to the foregoing, accessing Beneficiary/Third Party shall exercise reasonable efforts to prevent and limit any such disclosure, to otherwise preserve the confidentiality of the Personal Data and shall cooperate with the introducing Beneficiary with respect to any action taken with respect to such legal process, including to obtain an appropriate protective order or other reliable assurance that confidential treatment will be accorded to the Personal Data, in compliance with applicable law.

(12) The accessing Beneficiary/Third Party as Processor shall return all the Personal Data to the Controller after the end of the provision of services relating to processing and delete existing copies (unless applicable law requires storage of the Personal Data).

(13) The accessing Beneficiary/Third Party as Processor shall make available to the Controller all information necessary to demonstrate compliance with the obligations laid down in this Section 3.8, and allow for and contribute to audits, including inspections, conducted by the Controller or another auditor mandated by the Controller.

3.10 Joint Controller Actions. To the extent joint controllership is established with regard to determining the purposes and the means of the Processing, the Joint Controllers shall in a transparent manner determine their respective responsibilities for compliance with the obligations under the Data Protection Legislation, in particular as regards the exercising of the rights of the Data Subject and their respective duties to provide the information to the Data Subjects as required under Data Protection Legislation by means of an arrangement between them unless, and in so far as, the respective responsibilities of the Joint Controllers are determined by applicable law to which the Joint Controllers are subject. The arrangement referred shall duly reflect the respective roles and relationships of the Joint Controllers vis-à-vis the Data Subjects.

3.11 In general, cells lines (e.g. HeLa), derivatives (e.g. isolated proteins) and preparations of human biological materials (e.g. sub-cellular fractions) that are well established and made available for research use, do not require re-consent and/or ethics committee/IRB approval for the intended research use. Beneficiaries will need to make a case-by-case analysis, in order to determine whether consent is required or not.

4. FURTHER PROVISIONS ON THE USE OF PERSONAL DATA IN THE ACTION

4.1. Additional individual Data Subject consent and ethics committee/IRB approval may need to be obtained when the project activities intended (or the intended Research Use as provided for under the Consortium Agreement) are inconsistent with or beyond the scope of the original consent, and to the concerning Beneficiary(ies) assessment there is no other legal basis allowing the intended Processing.

4.2. If and to the extent required under the Data Protection Legislation, additional consent should also be obtained if the original consent (where needed under Data Protection Legislation) did not include analysis of DNA and other genetic tests (if relevant to the Project activities) or use of any associated medical information (if relevant to the Project activities).

4.3. If the Processing or intended Processing of Personal Data by a Beneficiary or Third Party, as data Controller or data Processor, takes place in a third country (i.e. a country outside the European Economic Area) which do not offer an adequate level of protection, this Processing shall be carried out in accordance with the (additional) requirements and appropriate safeguards under the Data Protection Legislation, such as:

a) Entering into the appropriate EU Standard Contractual Clauses;

b) Implementing Binding Corporate Rules that have received European approval and that cover all Personal Data concerned;
c) the countries where the Processing of such Personal Data takes place have received a binding adequacy decision by the European Commission; or

d) another validly executed transfer mechanism applies to the transfer of Personal Data to such countries that have not received a binding adequacy decision by the European Commission.

Appendix 6: Data Contributed as In-Kind
Appendix 7: Communication Guidelines

COMMUNICATION GUIDELINES

This Appendix governs Communication, by means other than Dissemination, by or on behalf of one more Beneficiaries. It is intended to cover, for example, the use of social media where the Project is associated with such Communication, e.g., a tweet that includes a reference to the Project, the Project twitter handle, “[XX]”, or the like. The use of social media, e.g., Twitter, Facebook, Instagram, Linked-In, blogs, and the like, is generally encouraged to build awareness of and publicize the Project and its progress. It is within this spirit that the following binding guidelines are provided. These guidelines cover Communications related to the Project that do not contain Results or Background, including by means of newsletters, blogs, and websites of patient groups, caregiver organizations, and the like.

Any activity listed as “Permitted Communications” below can be undertaken.
