# **DIGITAL HEALTH & ARTIFICIAL INTELLIGENCE**

## **eHealth Network - progress & priorities**

**Henrique Martins**

eHealth Network Co-chair

eHAction Coordinator

President of the Portuguese Shared Services for Ministry for Health

Shared Services for Ministry of Health

Portugal

November 2019

# eHealth Network focus

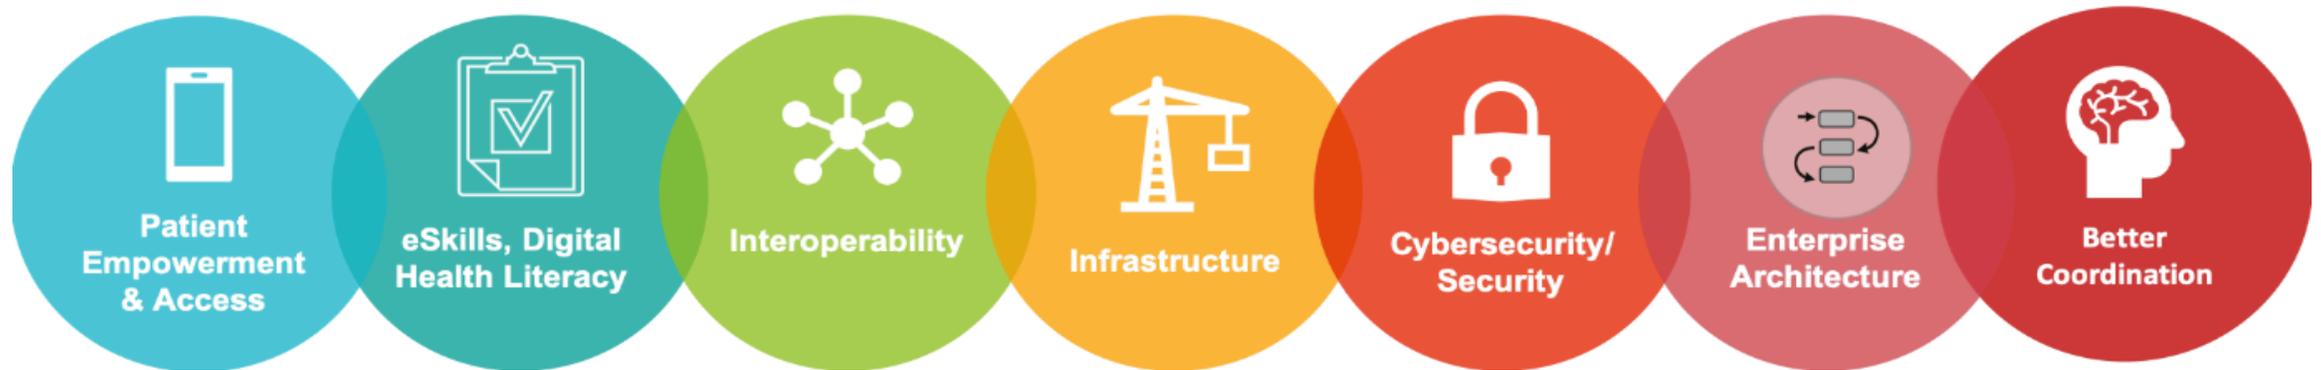

**eHAction - Joint Action Supporting the eHealth Network** is the expression of the Network's ambition to lead the way on key developments and to support Member States in core topics:

- Empowering People
- Innovative use of Health Data
- Enhancing continuity of care
- Overcoming implementation Challenges
- Integration on National policies and sustainability on eHealth
  - The Electronic Health Record Exchange Format (EHRxF)
  - EU Common Semantic Strategy (CSS)

## Key Driver - eHN 2020

Considering EU policy areas, eHealth Network role and the work done by European and International organisations in health or related areas, 7 additional key focus areas are recommended to the attention of the eHealth Network for 2018-2021.

Key Focus Areas

# Key Driver - eHN 2020

# eHAction: ongoing deliverables

• <i>Dissemination and stakeholders engagement strategy</i>	Jan 2019	<i>For information</i>	• <i>Policy framework on people empowerment</i>	May 2020	<i>For adoption</i>

• <i>eHDSI legal report</i>	Nov 2019	<i>For information</i>	• <i>Common eID Strategy for Health in the EU</i>	May 2021	<i>For information</i>

# Opportunities and challenges on cross-border cooperation

## Opportunities

- know deeply each MS/C reality;
- align eHealth strategies and projects in the future;
- ease the information and knowledge exchanges among countries;
- maintain an active group of countries: a common ground and community;
- suggest an integrated strategy in order to foster consensus among MS/C.

## Challenges

- high health/eHealth heterogeneity a
- divergence of priorities among MS/C;
- propose sustainable scenarios according to country's national health and eHealth strategy;
- take into account the EC expectations while elaborating post 2021 scenarios for cross border eHealth policy.

# THANK YOU!

## More Sharing, Better Health
