

# GAPS IN ACCESS TO **RADIO THERAPY** REMAIN THROUGHOUT EUROPE

1/3

Approximately one third of the Radiotherapy installed base in Europe is now **MORE THAN 10 YEARS OLD**

1000  
UNITS

The majority of these Radiotherapy units are in:  
**ITALY, GERMANY, FRANCE, SPAIN, UK**  
and **THE NETHERLANDS**.

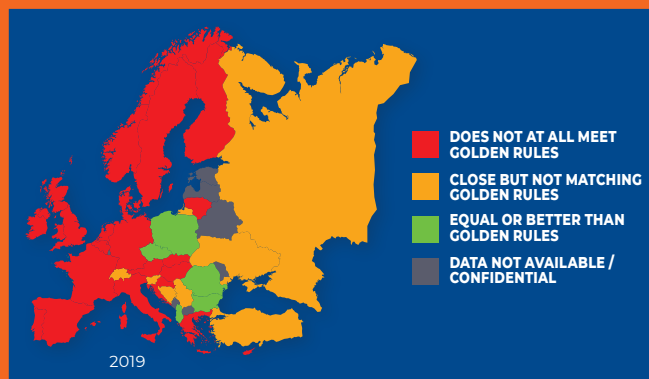

## THE COCIR GOLDEN RULES

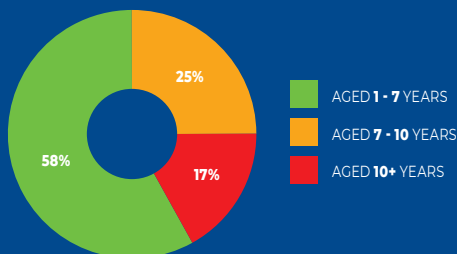

17% No more than **17%** of the installed equipment base should be **more than ten years old**.

12 YEARS COCIR Golden Rules have defined **12 years of age** as end of life and beyond which there should ideally not exist any equipment in use.

## APPROPRIATE MIX IN THE AGE PROFILE OF INSTALLED EQUIPMENT

**RADIO THERAPY  
AGE PROFILE & DENSITY**  
December 2019 Edition

COCIR, the European Coordination Committee of the Radiotherapy, Stereotactic and Brachytherapy (ESB) Society
