How to Engage with **COCIR**

EUROPEAN TRADE ASSOCIATION REPRESENTING THE MEDICAL IMAGING, RADIOTHERAPY, HEALTH ICT & ELECTROMEDICAL INDUSTRIES.

COCIR
Advancing Healthcare

Who we are

COCIR is the European Trade Association representing the medical imaging, radiotherapy, health ICT and electromedical industries. Founded in 1959, COCIR is a non-profit association headquartered in Brussels, Belgium.

COCIR represents corporate members and more than 10 national trade associations, together constituting more than 2000 companies.

VISION

Personalised and sustainable care that benefits patients, health professionals and healthcare systems.

MISSION

Our industry delivers innovative, data-driven, safe and efficient diagnostic imaging, radiotherapy and digital health solutions.

Our objectives are as follows:

- To support the transformation of European health systems, enabling better health outcomes and better experiences for patients and professionals.
- To promote the critical role of our industry as providers of essential or life-saving products and solutions for patients.
- To strive for the best innovation climate for our industry in Europe.

The Value of COCIR

SHAPING THE FUTURE OF HEALTHCARE IN EUROPE

COCIR is a highly respected, non-profit European trade association, established in 1959 and headquartered in Brussels. Its network brings together leading companies of all sizes across medical imaging, radiotherapy, digital health and electromedical technologies around common goals: shape a regulatory framework that supports market access, foster a thriving business environment, and accelerate the uptake of healthcare innovation across the EU. The main engine of COCIR is its collaborative peer-to-peer network, where members combine their expertise and influence to advocate for a competitive, innovation-friendly, and predictable business environment.

BUSINESS CASE FOR MEMBERSHIP

Joining COCIR is an investment in a trusted industry voice, ensuring that your company's interests are represented where the decisions shaping the future of the European medtech sector are made.

COCIR is an agile European association that enables relationships and trust to be built through close, personal engagement with both members and staff. This approach fosters in-depth analysis, open and meaningful dialogue, and a shared understanding of complex issues, resulting in swift and effective action. Speaking as one strong industry voice, COCIR helps shape European legislation, international standards, and policy frameworks.

As a member, you can contribute to and benefit from COCIR's well-established global order and sales statistics, gaining access to valuable data and insights on your market share, overall market size and trends. Deepen your understanding of emerging policy and regulatory developments and the impact on your business by joining a trusted network of leading industry peers and by contributing to common positions and political outreach.

You will benefit from COCIR's technical expertise and dedicated support, engage in European research and innovation initiatives, and be well positioned to identify and pursue relevant EU funding opportunities, such as the Innovative Health Initiative (IHI). In addition, you will have the opportunity to engage personally with EU policy makers and stakeholders that shape the future of healthcare technology in Europe.

In a nutshell, you get …

Advocacy. Expertise. Network.

Advocacy and Policy - Actively shape policymaking, regulation, and standards to improve market access and regulatory frameworks suitable for medical devices.

Trusted Network and Reinforce Industry's Voice - Join a well-renowned and reputable European network and strengthen your industry's voice.

Market Insights and Innovation Funding - Harness market intelligence and funding opportunities.

Our Sectors

COCIR members are global leaders in digital health, precision diagnostics, image guided therapy and connected care, bringing direct contributions to the EU's Digital Decade targets and European Health Union objectives. Europe's medtech industry stands as one of the continent's most dynamic innovation engines: transforming cutting-edge science into safe, life-saving solutions.

MEDICAL IMAGING

- X-Ray
- Computed Tomography (CT)
- Magnetic Resonance Imaging (MRI)
- Ultrasound
- Molecular Imaging (MI PET, MI SPECT)

DIGITAL HEALTH

- Electronic health (eHealth)
- Big data
- Genomics
- Artificial intelligence
- Telehealth
- Telemedicine
- Mobile health (mHealth)

IMAGED GUIDED THERAPY

- Radiation Therapy (RT)
  - » External beam therapy
  - » Particle therapy
  - » Brachytherapy
- Robotic Surgery

KEY TOPICS

INNOVATION

- Innovative Health Initiative (IHI)
- EU Cardiovascular Health Plan

TECHNICAL & REGULATORY

- Medical Devices Regulation (MDR)
- Trade barriers in third countries
- EU Standardisation Regulation

DIGITAL HEALTH

- AI Act
- European Health Data Space (EHDS)
- General Data Protection Regulation (GDPR)
- Cyber resilience Act, NIS2, EU Cybersecurity Act
- Data Act

SUSTAINABILITY

- RoHS
- Circular Economy Act
- REACH
- PFAS
- Measurement methodology for energy consumption of equipment
- Medical Equipment Proactive Alliance for Sustainable Healthcare (MEPA)

INTERNATIONAL AFFAIRS

- DITTA - the united global industry voice for diagnostic imaging, radiation therapy, healthcare IT, electromedical equipment and radiopharmaceutical
- IMDRF

RADIATION PROTECTION

MARKET INTELLIGENCE

Quarterly reporting of Orders, Sales for Medical Imaging, and Imaging IT product modalities

Code of Conduct

Become a Member

We welcome applications from:

Companies

Companies which develop and produce in the radiological, radiotherapy, electromedical and healthcare information technology industries and related sectors

A. whose registered office is established in the European Union, the EFTA, the United Kingdom of Great Britain and Northern Ireland, Turkey; and

B. which are members of the national trade associations involved in the radiological, radiotherapy, electromedical or healthcare information technology and related sectors of at least one country of any of the following areas which are the European Union, the EFTA, the United Kingdom of Great-Britain and Northern Ireland, Turkey.

National Trade Associations

National trade associations of manufacturers which develop and produce in the radiological, radiotherapy, electromedical and healthcare information technology industries and related sectors established in the European Union, the EFTA, the United Kingdom of Great Britain and Northern Ireland and Turkey.

SMEs

SMEs participating in an Innovative Health Initiative (IHI) project and meeting the following two criteria

A. Companies employing less than 250 persons

B. Annual turnover of up to EUR 50 million, or a balance sheet total of no more than EUR 43 million.

innovative health initiative

All Membership applications are submitted to the COCIR Board for review and approval.

Read the Statutes on our Website.

If you don't meet the Membership Requirements, you can still join our Market Intelligence activities.
More info on the next page.

MEMBERSHIP TYPES & FEES

Active Members

Active members can participate in any Committee and Working Group, and have voting rights at the annual General Assembly.

COMPANIES

Fee based on turnover in products within the scope of COCIR in Europe for the preceding year.

Category	European Turnover / year (€)
1	< 2,5 million
2	< 5 million
3	< 10 million
3,5	< 40 million
4	< 70 million
4,1	< 90 million
4,5	< 160 million
5	< 250 million
6	> 250 million

NATIONAL TRADE ASSOCIATIONS

Fee based on the size of national market for products in the scope of COCIR for the preceding year.

Category	National Market (€)
A	< 37,5 million
B	< 75 million <
C	150 million >
D	150 million

Associate Members

Associate members can participate only in selected Committees and Working Groups. They have no voting rights at the General Assembly. They may attend meetings of the General Assembly in an advisory capacity. Associate members pay a fixed amount per Committee.

READY TO APPLY?

Contact info@cocir.org with a brief description of your organisation.

Market Intelligence Activities

NEW FROM 2026
Become a reporting non-Member!

COCIR now welcomes also non-Member companies to participate in market intelligence activities.

Companies input their orders and sales every quarter, and they receive back their own **market share**, and the total size of the market.

Possibility of introducing new reporting segments, with a minimum requirement of three participating Companies.

Reports comprise all main medical imaging modalities: CT, MRI, MI PET CT, MI SPECT, Ultrasound and X-Ray

Reporting activities start in April for Q1 data, and end the following January for Q4 data.

Our reporting fees start from EUR 50 000 per year.

Contact info@cocir.org

MEMBERSHIP BENEFITS

Being represented by a single and global voice for your industry sector.

Participating in committees and working groups with in-depth expertise on a broad range of relevant topics.

Engaging with highlevel decision makers on policy matters.
